

# Academic Policies and Regulations: Registration, Grading and Cumulative Performance

---

## Pass/Fail

---

Students may take up to 20 percent of their total program on a Pass/Fail basis or an average of one course for every two mods. The course may not be selected from the major or minor departments or their required correlatives. A completed Pass/Fail form must be submitted to the Professional and Graduate Studies Office on the Friday of the second week of the Mod. Once paperwork is filed, it may not be rescinded. A Pass grade is not included in the cumulative average, and no honor points are given. A Fail grade is included in the cumulative average unless the course is successfully repeated.
