

Departments

Department of Biology, Chemistry and Mathematics

The mission of the Department of Biology, Chemistry and Mathematics is to build upon the College's Liberal Arts focus to prepare students with the knowledge, skills, and judgment necessary to be responsible, able practitioners in their chosen fields. The majors are designed to prepare students for careers in pharmaceutical sciences, medicine, allied health careers, science education, research, biotechnology industry, government service, and scientific writing. Majors are advised individually about their choice of courses according to their special interests and abilities. The faculty works closely with students, helping them to prepare for entrance into both professional and graduate programs.

Majors

Biology (Traditional Undergraduate Program)

Chemistry (Traditional Undergraduate Program)
