

Academic Policies and Regulations: Registration, Grading and Cumulative Performance

Grade Reports

Midterm Grade Reports

Faculty are required to submit midterm grades for all traditional undergraduate courses. Midpoint grades are a powerful tool for students to make informed decisions about their courses, holistic advising, connecting students to academic and support resources, as well as various administrative processes in financial aid and academic affairs. Students can access grades through Navigate or Self-Service. Though not required, faculty are encouraged to share midpoint grading information with adult undergraduate and graduate students in ADP.

Final Grade Reports

Traditional undergraduate grades are due no later than 48 hours after the conclusion of the final exam/project period. Adult undergraduate and graduate grades are due no later than 48 hours after the last scheduled class session for the term. Students can access grades through Navigate or Self-Service.
